GITHIGA HIGH SCHOOL

The school Anthem lyrics

Githiga school, Githiga school You are the place we all love to be Githiga school, Githiga school We stand by thee and always pray to God To bless you with a winning code

We labour one and all together
In search of knowledge and skills to build our nation
Just like the eagle high we fly
And to the creator our praise and thanks we give

You are the fountain of knowledge You are the land of brains and home of winners You are the center of success You are the land of hope and home of champions

Githiga school, Githiga school You are the place we all love to be Githiga school, Githiga school We stand by thee and always pray to God To bless you with a wnning code
